CLUB NOTES

Kim has spent \$500, from our Wawa Grant for the Food Banks, for Spiral Hams for *A Need We Feed*. They supplied a hot meal for Christmas that was prepared at Cafe Italia that was packed and delivered by volunteers on Christmas morning. Stop & Shop matched our grant from Wawa and we were able to cook, package and deliver over 1200 hot meals to those less fortunate than us. The whole process took less than 3 hours to complete - that was how many volunteers showed up to help.

CLUB NOTES

Pictured above are some of the volunteer delivery people waiting for their orders. Meals were delivered from Cafe Italia up to Bricktown and as far south as Little Egg, all by the volunteers. Cliff Baker, director of A Need We Feed and Chef Mike, from Atlantic Bar & Grill, were the organizers of effort.

Pictured above is the kitchen at Cafe Italia 8 AM Christmas morning!

Marty McHugh, Pres. Tony and Brick Wenzel (L-R) pictured with the heavy plastic tubs that are used at different fishing ports along the Jersey shore. Brick Wenzel is the founder of Americas Gleaned Food, an organization founded on reclaiming the by-catch from commercial fishermen and those other fishermen who have caught fish but could not release them back into the water. This will be a nation-wide program but the pilot program is starting in New Jersey. New Jersey has 3 of the top 25 ports in the country, that is why the program is starting here. NJ is in a unique position as we get cold water fish from the north and also warm water fish from the south. Fishing is one of the most regulated industries in the country. Americas Gleaned Seafood is a recognized non-profit organization able to accept donations. Trinity Seafood in Lakewood is one of the entities that accepts these plastic tubs and cleans and packages the reclaimed seafood which is then distributed to local food banks.
